

## **Organizational Sign-On Letter In Support of the Off Fossil Fuels for a Better Future Act (HR 3671)**

The current global climate emergency presents an existential threat to all people on this planet and time is running out. The OFF Fossil Fuels for a Better Future Act (OFF Act) is a critical piece of legislation that will spur the necessary transition of our energy economy in a way that rises to the threat science tells us we face. I am proud to stand with the following organizations that are supporting this bill.

### **National Organizations**

Breast Cancer Action  
Center for Biological Diversity  
Center for Food Safety
